Orai

THE FUTURE OF COMMUNICATION SKILL ASSESSMENT AND TRAINING POWERED BY AI FOR YOU!

WHAT IS ORAI?

Orai is an AI (Artificial Intelligence) driven - on demand - personalized - communication coaching platform. The heart of it is the Orai app and the refinement modules that help achieve the goal of effective communication. Our training program aided by the app and remedial modules helps individuals enhance communication skills and sound more confident, compelling and concise. We bring science into the art of communication.

WHY ORAI?

Each week is designed to help Users learn and practice essential communication skills.

- Segment to practice
- Segment to retain learning
- Segment to observe measurable improvements

Our coaching is designed to help users stay hooked to the course by using the best gamification elements and progress trackers. In addition to that, our community challenges and peer-to-peer feedback adds an element of social learning and makes the user a part of the community that leads to growth.

Provide instant feedback through artificial intelligence

Train learners through our micro-learning modules

Scale communication skills training

CONCISE

Being concise and direct helps Users spend less time in discussions. This reduces the scope for miscommunication and leads to much productive work force.

WHAT'S INCLUDED?

HUMAN-IN-THE-LOOP COACHING

We set up calls with your team to understand their communication bottlenecks. Insights from those conversations help us deploy a customized set of lessons to help your team make the most out of Orai.

MEASURABLE IMPROVEMENT

Our AI powered tool Orai, measures the communication score based on speech disfluency metrics viz. pace, filler, energy and clarity, conciseness, and confidence.

AMAZING CONTENT

Our data-scientists and instructional designers have experimented for over a year with more than 50,000 users to refine our training content. We've found triggers and patterns that help people learn about their communication habits and make tangible improvements rapidly.

CONFIDENT

Confident communicators get more Yes's for their ideas. We believe everyone has excellent ideas but are sometimes afraid to speak up and share their ideas.

COMPELLING

Orai tracks users on the use of their filler words, rate of speech and their facial expressions while speaking. Our lessons provide an understanding of how to improve and use each metric.

"To effectively communicate, we must realize that we are all different in the way we perceive the world and use this understanding as a guide to our communication with others." - Anthony Robbins

FOR ENTERPRISE

We set up calls with your team to understand their communication bottlenecks. Insights from those conversations help us deploy a customized set of lessons to help your team make the most out of Orai. Along with weekly emails from us, we also set up "mid" and "end" of course check-ins to ensure that your team is set up for success!
